Editorial

*The **Journal of Production Engineering** dates back to 1984, when the first issue of the **Proceedings of the Institute of Production Engineering** was published in order to present its accomplishments. In 1994, after a decade of successful publication, the Proceedings changed the name into **Production Engineering**, with a basic idea of becoming a Yugoslav journal which publishes original scientific papers in this area.*

The JPE is a prestigious publication dedicated to advancing the fields of production engineering and technology. With a primary focus on industrial engineering, and operations research, JPE aims to promote excellence in manufacturing processes worldwide. The JPE is a prestigious publication known for its commitment to publishing compelling scientific results that have clear applications in a variety of fields. Focusing on industrial practice, manufacturing technology, engineering, management science, and the optimization of complex processes, systems, or organizations, JPE serves as a platform for the dissemination of groundbreaking research results that lead to practical advances.

Editor in Chief

Professor Aco Antić, PhD.
